all the whites, with a combination of open doors immigration, depressed local birth rates, and miscegenation. That said, the plot it not limited to Europe, but to all white countries.

1. Mass LEGAL Immigration In Canada

Despite what many think, ***LEGAL*** immigration into Canada is actually a much larger threat than illegal aliens, given the true scale of the replacement that is happening. What was founded as a European (British) colony is becoming unrecognizable due to forced demographic changes. There are also social, economic, environmental and voting changes to consider. See this Canadian series, and the UN programs for more detail. Politicians, the media, and so-called “experts” have no interest in coming clean on this.

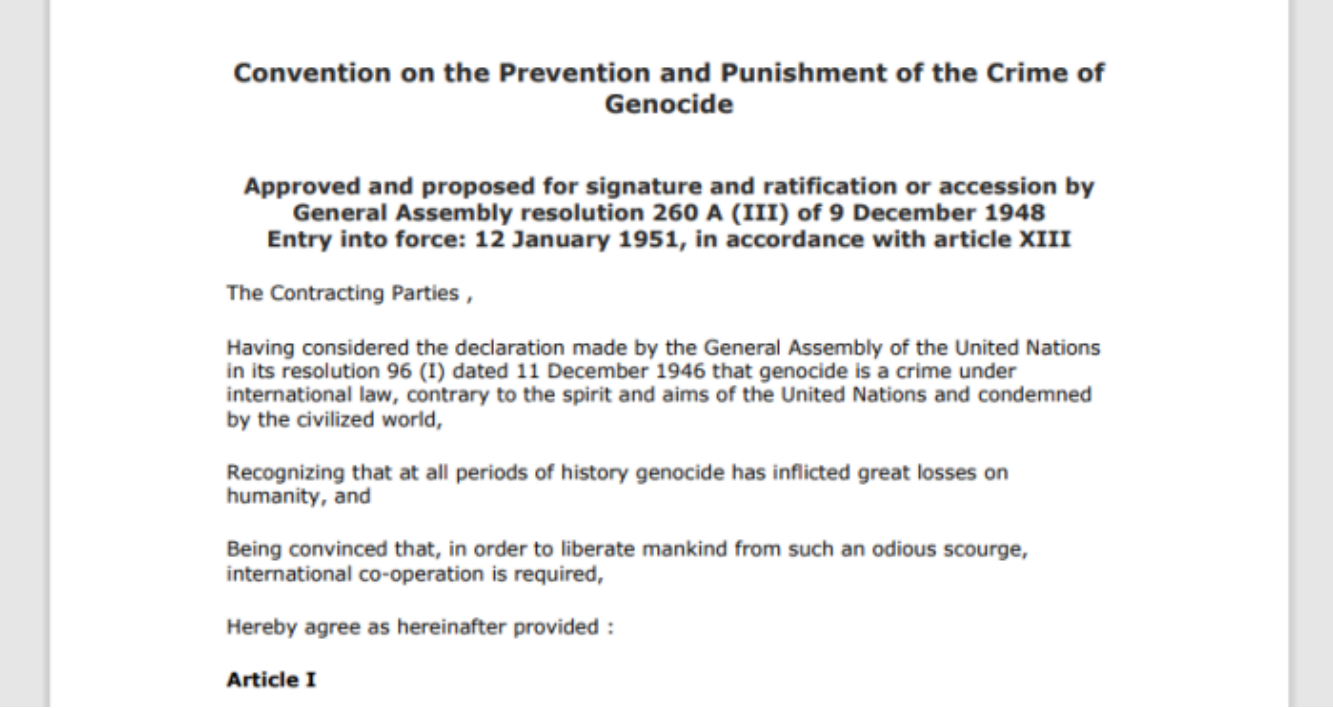
Note: If there are errors in calculating the totals, please speak up. Information is of no use to the public if it isn’t accurate.

2. Replacement Migration Fits U.N. Definition Of Genocide



Convention on the Prevention and Punishment of the Crime of Genocide

Approved and proposed for signature and ratification or accession by General Assembly resolution 260 A (III) of 9 December 1948
Entry into force: 12 January 1951, in accordance with article XIII

The Contracting Parties ,

Having considered the declaration made by the General Assembly of the United Nations in its resolution 96 (I) dated 11 December 1946 that genocide is a crime under international law, contrary to the spirit and aims of the United Nations and condemned by the civilized world,

Recognizing that at all periods of history genocide has inflicted great losses on humanity, and

Being convinced that, in order to liberate mankind from such an odious scourge, international co-operation is required,

Hereby agree as hereinafter provided :

Replacement Migration: Is It a Solution to Declining and Ageing Populations?
United Nations projections indicate that over the next 50 years, the populations of virtually all countries of Europe as well as Japan will face population decline and population ageing. The new challenges of declining and ageing populations will require comprehensive reassessments of many established policies and programmes, including those relating to international migration.
Focusing on these two striking and critical population trends, the report considers replacement migration for eight low-fertility countries (France, Germany, Italy, Japan, Republic of Korea, Russian Federation, United Kingdom and United States) and two regions (Europe and the European Union). Replacement migration refers to the international migration that a country would need to offset population decline and population ageing resulting from low fertility and mortality rates.

Isn't trying to replace or displace a population considered genocide by the United Nations? Well, it does fit their own definitions….

Article I

The Contracting Parties confirm that genocide, whether committed in time of peace or in time of war, ***is a crime under international law which they undertake to prevent and to punish***.

Article II

In the present Convention, genocide means any of the following acts committed with ***intent to destroy, in whole or in part, a national, ethnical, racial or religious group***, as such:

(a) Killing members of the group;

(b) Causing serious bodily or ***mental harm to members of the group***;

(c) Deliberately inflicting on the group ***conditions of life calculated to bring about its physical destruction in whole or in part***;

(d) ***Imposing measures intended to prevent births within the group***;

(e) Forcibly transferring children of the group to another group.

Article III

The following acts shall be punishable:

(a) ***Genocide***;

(b) ***Conspiracy to commit genocide***;

(c) ***Direct and public incitement to commit genocide***;

(d) ***Attempt to commit*** genocide;

(e) ***Complicity*** in genocide.

Article IV

Persons committing genocide or any of the other acts ***enumerated in article III shall be punished***, whether they are constitutionally responsible rulers, public officials or private individuals.

Article V

The Contracting Parties undertake to enact, in accordance with their respective Constitutions, the ***necessary legislation to give effect to the provisions of the present Convention, and, in particular, to provide effective penalties for persons guilty of genocide*** or any of the other acts enumerated in article III.

It's also worth asking if pluralism (imposed without the consent of the people) would amount to genocide under the terms as laid out by the U.N. in the Convention on the Prevention and Punishment of the Crime of Genocide After all, if pluralism results in at least a partial replacement of a group, isn't that bringing about its destruction?

3. Genocidal Population Replacement Long Time Problem

Let's have a look at some of those recent years. While 2003 to 2020 has already been covered pretty extensively on this site, the problem extends much further than that.

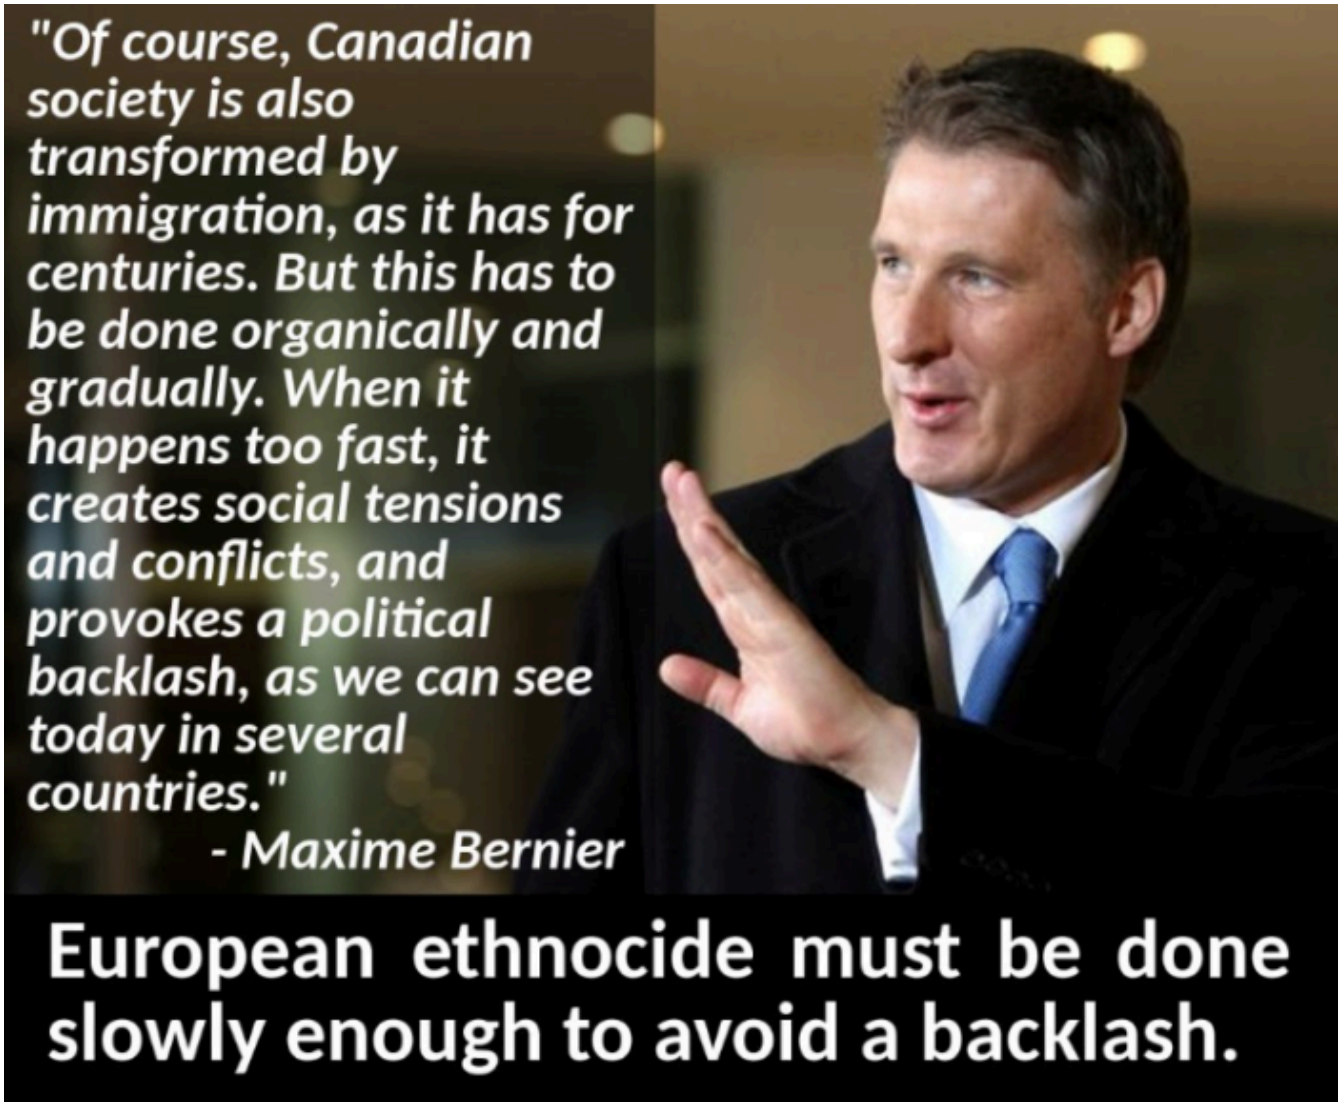
Are things starting to make sense? Immigration policies for the last 50+ years have focused on Asians and Africans, replacing (to a large degree) the overwhelmingly European makeup that was Canada for many years.

Of course, speaking up about what's apparent will lead to cries of racism.



"Of course, Canadian society is also transformed by immigration, as it has for centuries. But this has to be done organically and gradually. When it happens too fast, it creates social tensions and conflicts, and provokes a political backlash, as we can see today in several countries."
- Maxime Bernier
European ethnocide must be done slowly enough to avoid a backlash.

Tory leadership candidate Pierre Poilievre denounces 'white replacement theory'

NATIONAL POST

NP Comment

Michelle Rempel Garner: A duty to reject conspiracy theories about white replacement

It is pure ignorance to believe that this dogma doesn't exist in Canada

Michelle Rempel Garner, Special to National Post
May 18, 2022 • 1 week ago • 4 minute read • 226 Comments

Michelle Rempel Garner
@MichelleRempel
I mean….why can't Canada have a political party that's fiscally responsible / pragmatic, unapologetically / unequivocally supportive of women and gay rights, and an unabashed defender of pluralism?
Althia Raj @althiaraj · 8h
'Who speaks for the centre?' A new group of Conservatives says the party's path to victory is right down the middle thestar.com/politics/feder… via @torontostar

One thing people really need to get clear: so-called "conservatives" have no interest whatsoever in preserving demographics or the makeup of a country. They fully support the genocide agenda, but try to pitch it from a more economic perspective.

White replacement is a very real thing. Only the most obtuse or unobservant cannot see what's going on, especially given how blatant it is..

While Liberals are generally quite open for their disdain of Europeans, "Conservatives" behave in a stealthier and more subversive manner. They camouflage their true intentions, making them more dangerous.

A little self promotion: Borderless Canada is still available online. Learn about what's been going on in this country. Virtually all major issues can be directly tied to immigration and border security, and it's not racist or bigoted to discuss these hard truths.
